

Meet the ADA Pool Compliance Deadline Before Time Runs Out!

Is your hotel's pool ADA-compliant? The March 15, 2012, deadline for full compliance is rapidly approaching. If your hotel has a swimming pool, spa, or wading pool, it must meet the U.S. Department of Justice's ADA title II and III rules by having an accessible means of entry/exit.

Our selection of pool lifts will help you comply with ADA rules.

Frequently Asked Questions

Who is affected?

Any pool that is open to the public must comply. Examples of entities affected by title II include school districts, municipalities, cities, and counties. Examples of entities affected by title III include lodging, recreation, education, and transportation.

What is the effective date for compliance?

The law took effect on March 15, 2011. Full compliance is required on March 15, 2012.

What are the swimming pool-specific requirements?

Pools less than 300 linear feet must have one "primary" means of access. Pools more than 300 linear feet must have 2 means of access, one "primary" and a "secondary," which can be any of the 5 approved means of access.

What qualifies as a means of access?

There are 5 means of access. Pool lifts and sloped entries are considered "primary." Transfer walls, transfer systems, and accessible stairs are considered "secondary" means of access.

Where can I get more information on the new rules?

Read more about the rules by visiting ada.gov.

What is the best type of pool lift for my property?

Each property is unique. Use the chart below to determine which features best fit your needs.
